

DRUG AND ALCOHOL DEPENDENCE

SUBJECT INDEX

Volume 28 (1991)

- Abuse liability, barbiturates, benzodiazepines, subjective effects, reinforcing effects, humans, 83
Abuse liability testing, human subjects, agonist-antagonist opioids, opioids, 49
Abuse potential, nefazodone, antidepressant, self-administration, rhesus monkey, cocaine, 241
Adaptive response, ethanol, lipid acylation, erythrocytes, rats, 277
Adolescents, alcohol drinking, Moslem, Druze, Israel, prevention, 189
Agonist-antagonist opioids, abuse liability testing, human subjects, opioids, 49
Alcohol, cardiomyopathy, left ventricular dysfunction, drug abuse, radionuclide angiography, 113
Alcoholic liver disease, biochemical liver function tests, 211
Alcohol abuse, drug abuse, primary care workers, knowledge and views, 177
Alcohol consumption, boys, France, 183
Alcohol consumption, drinking habits, teenagers, Scotland, 203
Alcohol consumption, expectancies, causes, Sweden, 145
Alcohol consumption, illicit drugs, nurses, 195
Alcohol dependence, DSM-III-R, treatment sample, general population, 225
Alcohol drinking, adolescents, Moslem, Druze, Israel, prevention, 189
Amphetamine, cocaine, phenmetrazine, diethylpropion, mazindol, methylphenidate, fenfluramine, 3
Antidepressant, nefazodone, self-administration, rhesus monkey, cocaine, abuse potential, 241
Attitudes, heroin, cocaine, cannabis, stereotyping, 283

Barbiturates, benzodiazepines, subjective effects, reinforcing effects, abuse liability, humans, 83
Benzodiazepines, barbiturates, subjective effects, reinforcing effects, abuse liability, humans, 83
Biochemical liver function tests, alcoholic liver disease, 211
Boys, alcohol consumption, France, 183

Cannabis, heroin, cocaine, attitudes, stereotyping, 283
Cannabis, Δ -9-tetrahydrocannabinol, memory, radial 8-arm maze, rat, 167
Cardiomyopathy, alcohol, left ventricular dysfunction, drug abuse, radionuclide angiography, 113
Causes, alcohol consumption, expectancies, Sweden, 145
Chronic treatment, ethanol, dependence, neurochemistry, rats, 129
Clinical assessment, opiate detoxification, self-rating, 265
Co-morbidity, dual diagnosis, substance abuse, psychiatric illness, drug abuse epidemiology, 215

Cocaine, amphetamine, phenmetrazine, diethylpropion, mazindol, methylphenidate, fenfluramine, 3
Cocaine, employed users, spontaneous reduction, Scotland, 269
Cocaine, heroin, cannabis, attitudes, stereotyping, 283
Cocaine, nefazodone, antidepressant, self-administration, rhesus monkey, abuse potential, 241
Cortisol, marijuana, endocrine, testosterone, luteinizing hormone, follicle stimulating hormone, prolactin, 121

Dependence, ethanol, chronic treatment, neurochemistry, rats, 129
Diazepam dependence in dogs, halazepam dependence in dogs, precipitated abstinence, flumazenil, nordiazepam dependence in dogs, 249
Diethylpropion, amphetamine, cocaine, phenmetrazine, mazindol, methylphenidate, fenfluramine, 3
Drinking habits, alcohol consumption, teenagers, Scotland, 203
Drug abuse, alcohol, cardiomyopathy, left ventricular dysfunction, radionuclide angiography, 113
Drug abuse, alcohol abuse, primary care workers, knowledge and views, 177
Drug abuse epidemiology, dual diagnosis, co-morbidity, substance abuse, psychiatric illness, 215
Drug births, drug incidence, drug rates, drug trends, drug hospitalization, 151
Drug hospitalization, drug incidence, drug rates, drug trends, drug births, 151
Drug incidence, drug rates, drug trends, drug births, drug hospitalization, 151
Drug rates, drug incidence, drug trends, drug births, drug hospitalization, 151
Drug trends, drug incidence, drug rates, drug births, drug hospitalization, 151
Druze, alcohol drinking, adolescents, Moslem, Israel, prevention, 189
DSM-III-R, alcohol dependence, treatment sample, general population, 225
Dual diagnosis, co-morbidity, substance abuse, psychiatric illness, drug abuse epidemiology, 215

Employed users, cocaine, spontaneous reduction, Scotland, 269
Endocrine, marijuana, testosterone, luteinizing hormone, follicle stimulating hormone, prolactin, cortisol, 121
Erythrocytes, ethanol, adaptive response, lipid acylation, rats, 277
Ethanol, adaptive response, lipid acylation, erythrocytes, rats, 277

- Ethanol, chronic treatment, dependence, neurochemistry, rats, 129
- Ethanol, superoxide dismutase, sulfhydryl compounds, malondialdehyde, rat, 291
- Expectancies, alcohol consumption, causes, Sweden, 145
- Fenfluramine, amphetamine, cocaine, phenmetrazine, diethylpropion, mazindol, methylphenidate, 3
- Flumazenil, halazepam dependence in dogs, precipitated abstinence, diazepam dependence in dogs, nordiazepam dependence in dogs, 249
- Follicle stimulating hormone, marijuana, endocrine, testosterone, luteinizing hormone, prolactin, cortisol, 121
- France, alcohol consumption, boys, 183
- General population, DSM-III-R, alcohol dependence, treatment sample, 225
- Halazepam dependence in dogs, precipitated abstinence, flumazenil, diazepam dependence in dogs, nordiazepam dependence in dogs, 249
- Heroin, cocaine, cannabis, attitudes, stereotyping, 283
- Humans, barbiturates, benzodiazepines, subjective effects, reinforcing effects, abuse liability, 83
- Human subjects, abuse liability testing, agonist-antagonist opioids, opioids, 49
- Illicit drugs, alcohol consumption, nurses, 195
- Israel, alcohol drinking, adolescents, Moslem, Druze, prevention, 189
- Knowledge and views, drug abuse, alcohol abuse, primary care workers, 177
- Left ventricular dysfunction, alcohol, cardiomyopathy, drug abuse, radionuclide angiography, 113
- Lipid acylation, ethanol, adaptive response, erythrocytes, rats, 277
- Luteinizing hormone, marijuana, endocrine, testosterone, follicle stimulating hormone, prolactin, cortisol, 121
- Malondialdehyde, ethanol, superoxide dismutase, sulfhydryl compounds, rat, 291
- Marijuana, endocrine, testosterone, luteinizing hormone, follicle stimulating hormone, prolactin, cortisol, 121
- Mazindol, amphetamine, cocaine, phenmetrazine, diethylpropion, methylphenidate, fenfluramine, 3
- Memory, cannabis, Δ -9-tetrahydrocannabinol, radial 8-arm maze, rat, 167
- Methylphenidate, amphetamine, cocaine, phenmetrazine, diethylpropion, mazindol, fenfluramine, 3
- Moslem, alcohol drinking, adolescents, Druze, Israel, prevention, 189
- Nefazodone, antidepressant, self-administration, rhesus monkey, cocaine, abuse potential, 241
- Neurochemistry, ethanol, chronic treatment, dependence, rats, 129
- Nordiazepam dependence in dogs, halazepam dependence in dogs, precipitated abstinence, flumazenil, diazepam dependence in dogs, 249
- Nurses, alcohol consumption, illicit drugs, 195
- Opiate detoxification, self-rating, clinical assessment, 265
- Opioids, abuse liability testing, human subjects, agonist-antagonist opioids, 49
- Phenmetrazine, amphetamine, cocaine, diethylpropion, mazindol, methylphenidate, fenfluramine, 3
- Precipitated abstinence, halazepam dependence in dogs, flumazenil, diazepam dependence in dogs, nordiazepam dependence in dogs, 249
- Prevention, alcohol drinking, adolescents, Moslem, Druze, Israel, 189
- Primary care workers, drug abuse, alcohol abuse, knowledge and views, 177
- Prolactin, marijuana, endocrine, testosterone, luteinizing hormone, follicle stimulating hormone, cortisol, 121
- Psychiatric illness, dual diagnosis, co-morbidity, substance abuse, drug abuse epidemiology, 215
- Radial 8-arm maze, cannabis, Δ -9-tetrahydrocannabinol, memory, rat, 167
- Radionuclide angiography, alcohol, cardiomyopathy, left ventricular dysfunction, drug abuse, 113
- Rat, cannabis, Δ -9-tetrahydrocannabinol, memory, radial 8-arm maze, 167
- Rat, ethanol, superoxide dismutase, sulfhydryl compounds, malondialdehyde, 291
- Rats, ethanol, adaptive response, lipid acylation, erythrocytes, 277
- Rats, ethanol, chronic treatment, dependence, neurochemistry, 129
- Reinforcing effects, barbiturates, benzodiazepines, subjective effects, abuse liability, humans, 83
- Rhesus monkey, nefazodone, antidepressant, self-administration, cocaine, abuse potential, 241
- Scotland, alcohol consumption, drinking habits, teenagers, 203
- Scotland, cocaine, employed users, spontaneous reduction, 269
- Self-administration, nefazodone, antidepressant, rhesus monkey, cocaine, abuse potential, 241
- Self-rating, opiate detoxification, clinical assessment, 265
- Spontaneous reduction, cocaine, employed users, Scotland, 269
- Stereotyping, heroin, cocaine, cannabis, attitudes, 283
- Subjective effects, barbiturates, benzodiazepines, reinforcing effects, abuse liability, humans, 83
- Substance abuse, dual diagnosis, co-morbidity, psychiatric illness, drug abuse epidemiology, 215
- Sulfhydryl compounds, ethanol, superoxide dismutase, malondialdehyde, rat, 291
- Superoxide dismutase, ethanol, sulfhydryl compounds, malondialdehyde, rat, 291
- Sweden, alcohol consumption, expectancies, causes, 145
- Teenagers, alcohol consumption, drinking habits, Scotland, 203
- Testosterone, marijuana, endocrine, luteinizing hormone, follicle stimulating hormone, prolactin, cortisol, 121
- Δ -9-Tetrahydrocannabinol, cannabis, memory, radial 8-arm maze, rat, 167
- Treatment sample, DSM-III-R, alcohol dependence, general population, 225
